MAMASAPANO MUNICIPALITY

AL-RAHMAN FARMERS MPC FARM - One of the center for agricultural development is located at the heart of the Barangay Manungkaling which was established and founded by Dr. Modrika A. Masukat, Ph.D. of the Department of Agriculture-ARMM, now MAFAR-BARMM.

The organized farmers started the promotion of Organic Farming in 2013 by introducing the production of Organic Black, Brown and Red rice in a portion of a 4 hectares land out of the 7 hectares projected project.

The center for now is promoting the culture and production of MORE SAF 44, meaning Mamasapano Organic Rice Enterprise (MORE) 44 kinds or varieties of crops being planted to serve as Sustainable Agricultural Farming (SAF) with 44 sustainable food crops being produce.

For now, the AL-RAHMAN FARMERS MPC FARM is the major supplier of Organic Black, Brown and Red rice throughout the BARMM region. These innovation promotes livelihood and income among the farmers

The Old Mosque

The old Mosque and the Tomb of the late governor are side by side structure that illustrate the old history of Central Mindanao

Old Nawasa Tank (National Water and Sanitation Association)

This old water reservoir was built during time of the late Governor Datu Udtog Matalam Sr. It is declared by municipality as historical landmark given the fact that it has been one the oldest infrastructures built in the municipality. The interesting feature of this old tank is that it became a sanctuary for thousands of bats.

The “Red House”-Old Rural Bank

This structure was formerly the old Rural Bank of the Greater Cotabato which has been preserved as one of the historical heritage sites in the municipality.

Tamburi Falls

Another nature attraction in South Upi is the “Tamburi Falls”

This fall has a unique rock layer formation, where water flows over the edge of a steep in mountains and falls into a pool below. People of South Upi are enjoying the clean cold water of this fall.
